Subject: Note from Walter Echo-Hawk

Dear Randy,

Happy Holidays! I understand the EPA regulates waste water disposal injection wells on Indian land in Indian Country. If that is so, can you send me a map of all waste water disposal injection wells on Indian land under EPA regulation within a five mile radius of my property?

I live on a Pawnee Indian allotment in Payne County at: (b) (6)

Also, what kind of information can you send me on those wells regarding ownership, operations and EPA regulations?

Thank you for your assistance.

Sincerely,

Walter Echo-Hawk
